Company Profile

2022

Red Castle - Tripoli , Libya

Adel Bashir Sbeta
Founder & CEO

Introduction

Location

Libya is a country located in North Africa. Bordering the Mediterranean Sea, Libya is surrounded by Egypt, Sudan, Chad, Niger, Algeria, and Tunisia. More than 90% of the country is desert or semi-desert, and there are limited natural freshwater resources.

Government

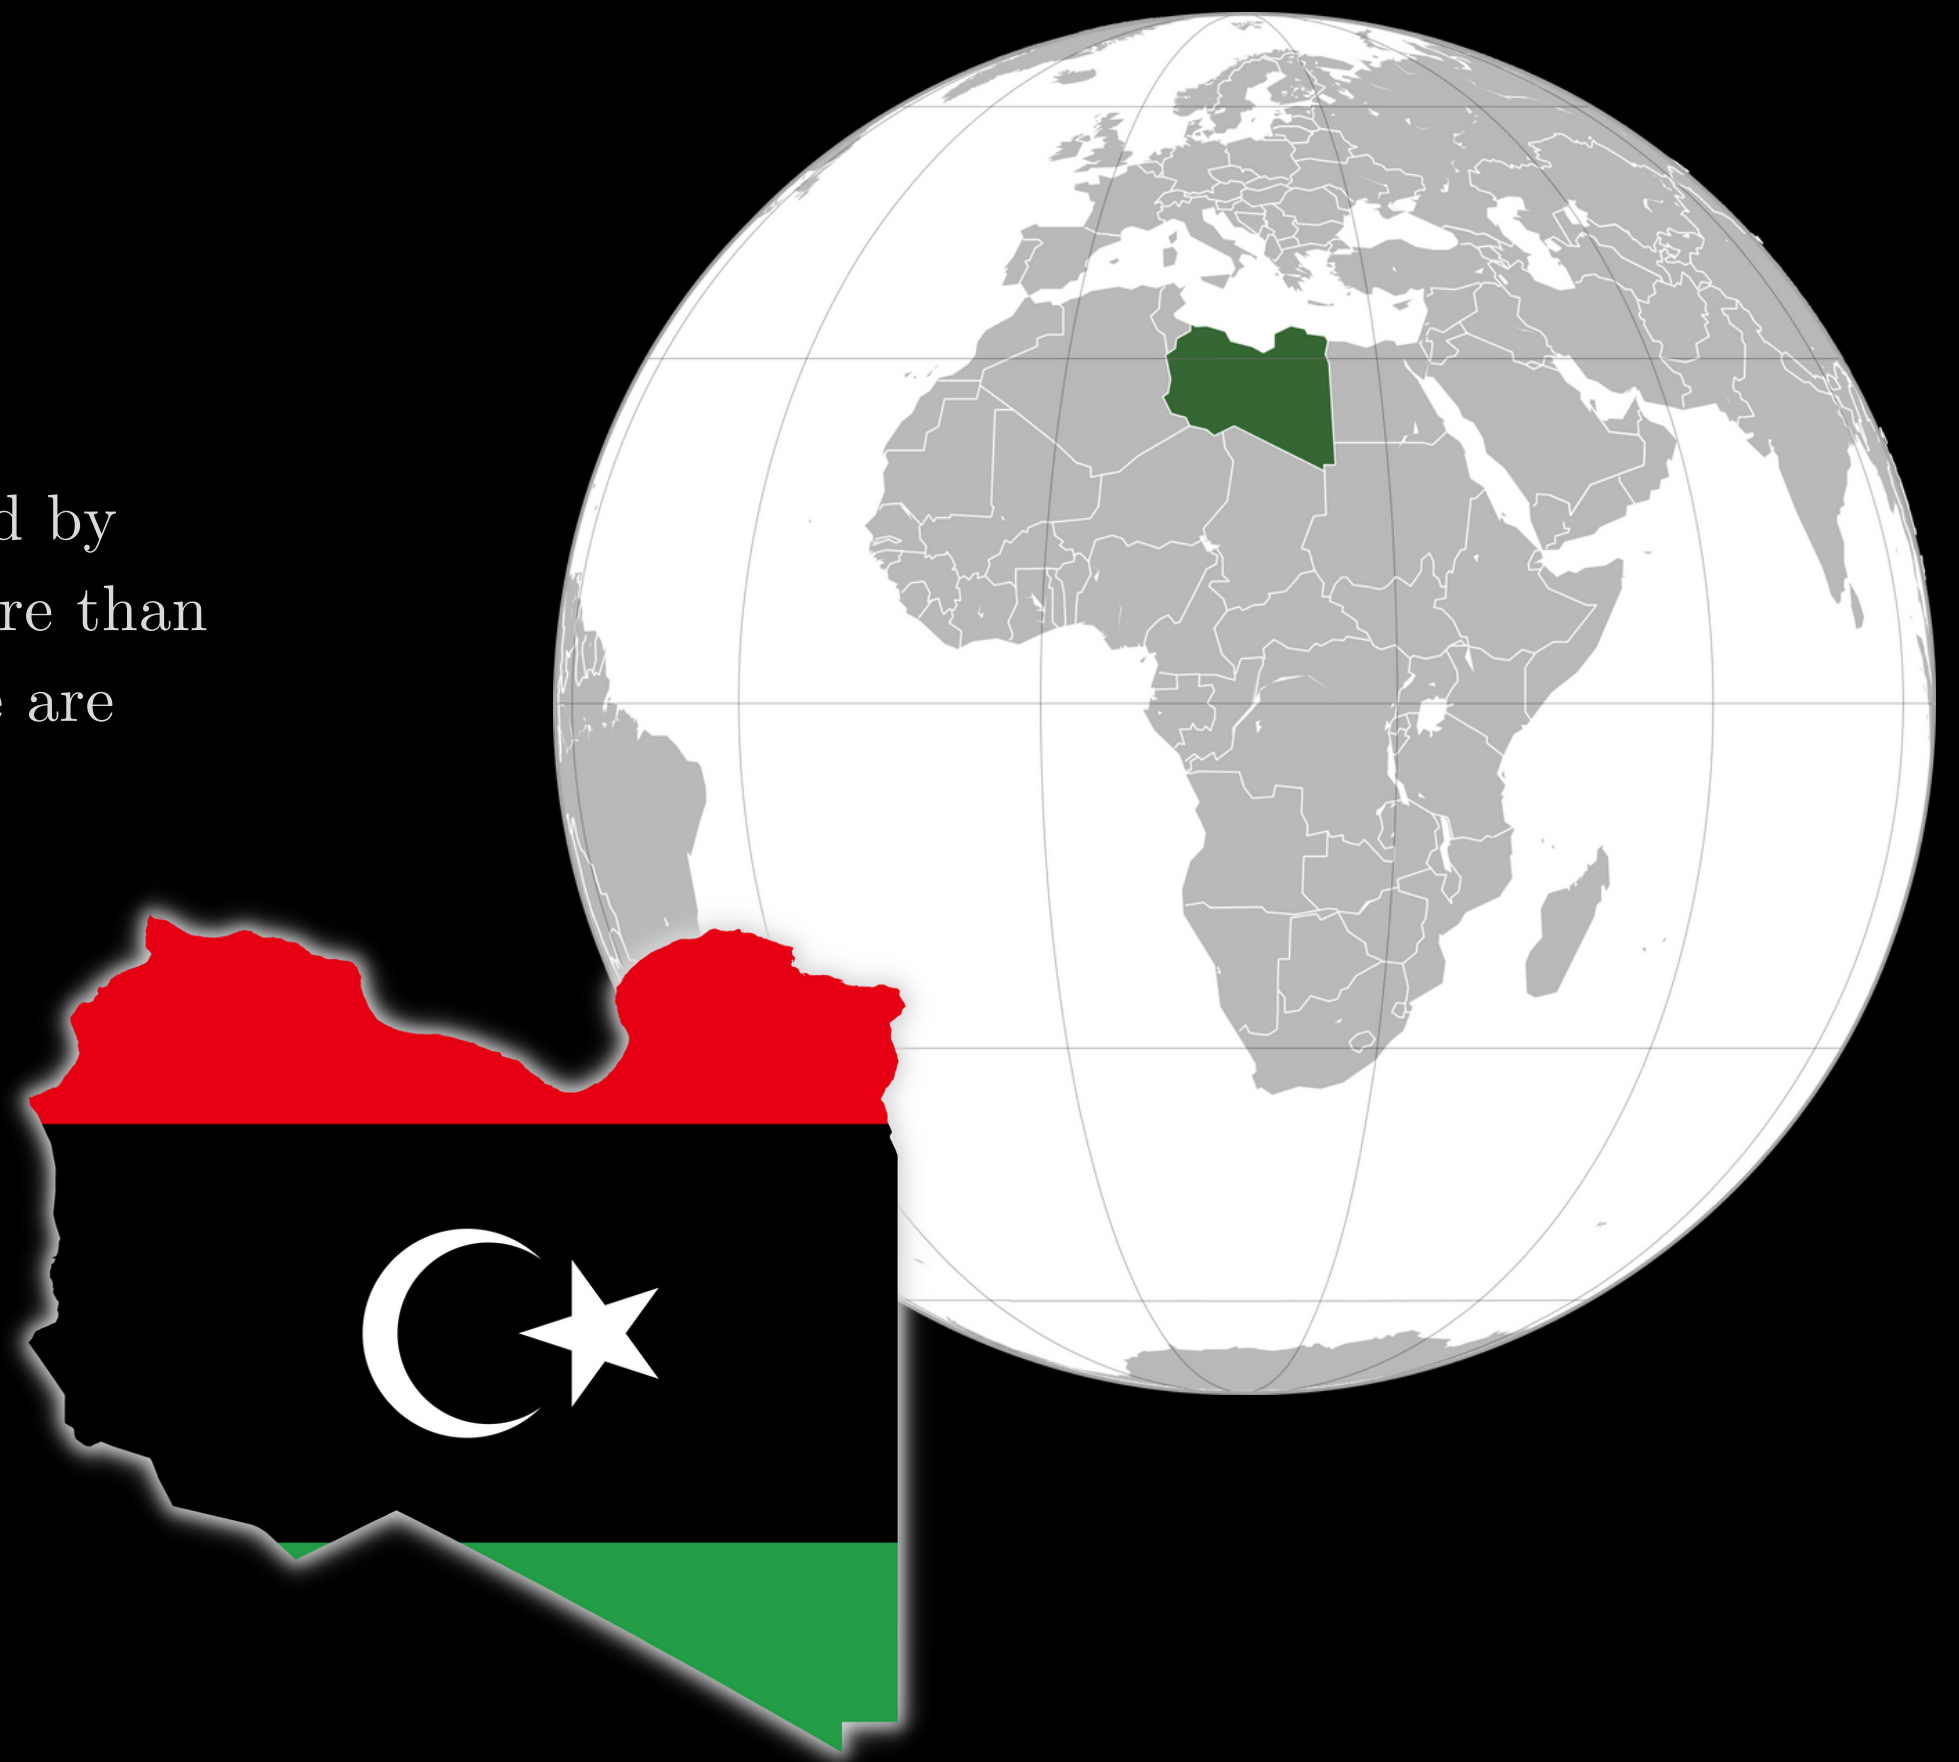

The government system is in a state of transition; the chief of state is the president of the General National Congress, and the head of government is the prime minister. Libya is transitioning to a more market-based economy in which the prices of goods and services are determined in a free price system.

Currency

Libyan Dinar LYD

Population

Our Vision

Impress our clients

To surpass our customers expectations through hard work, prime services and superior products supplied by multinational esteemed companies.

We also thrive to be the leading provider for ophthalmic products in the Libyan market ensuring to always have quality products for the well-being of our clients.

Our Mission

Quality

We aim to continuously and profitably improve our services and staff through conducting innovative training programs adherent to the industry worldwide.

We intend to expand our variety of product options to fit our customers' needs and preferences.

Our Services

Customer service, Training, Maintenance and Installation.

We offer a full spectrum of services to help doctors and technicians work better. We create standards of excellence and help you achieve them.

Customer Service

After installation, our customer service is always there to provide you maximum support until the end user feels comfortable with the installed products.

We also provide online service remotely for systems work with operating system to save time and ensure continuous performance.

Training

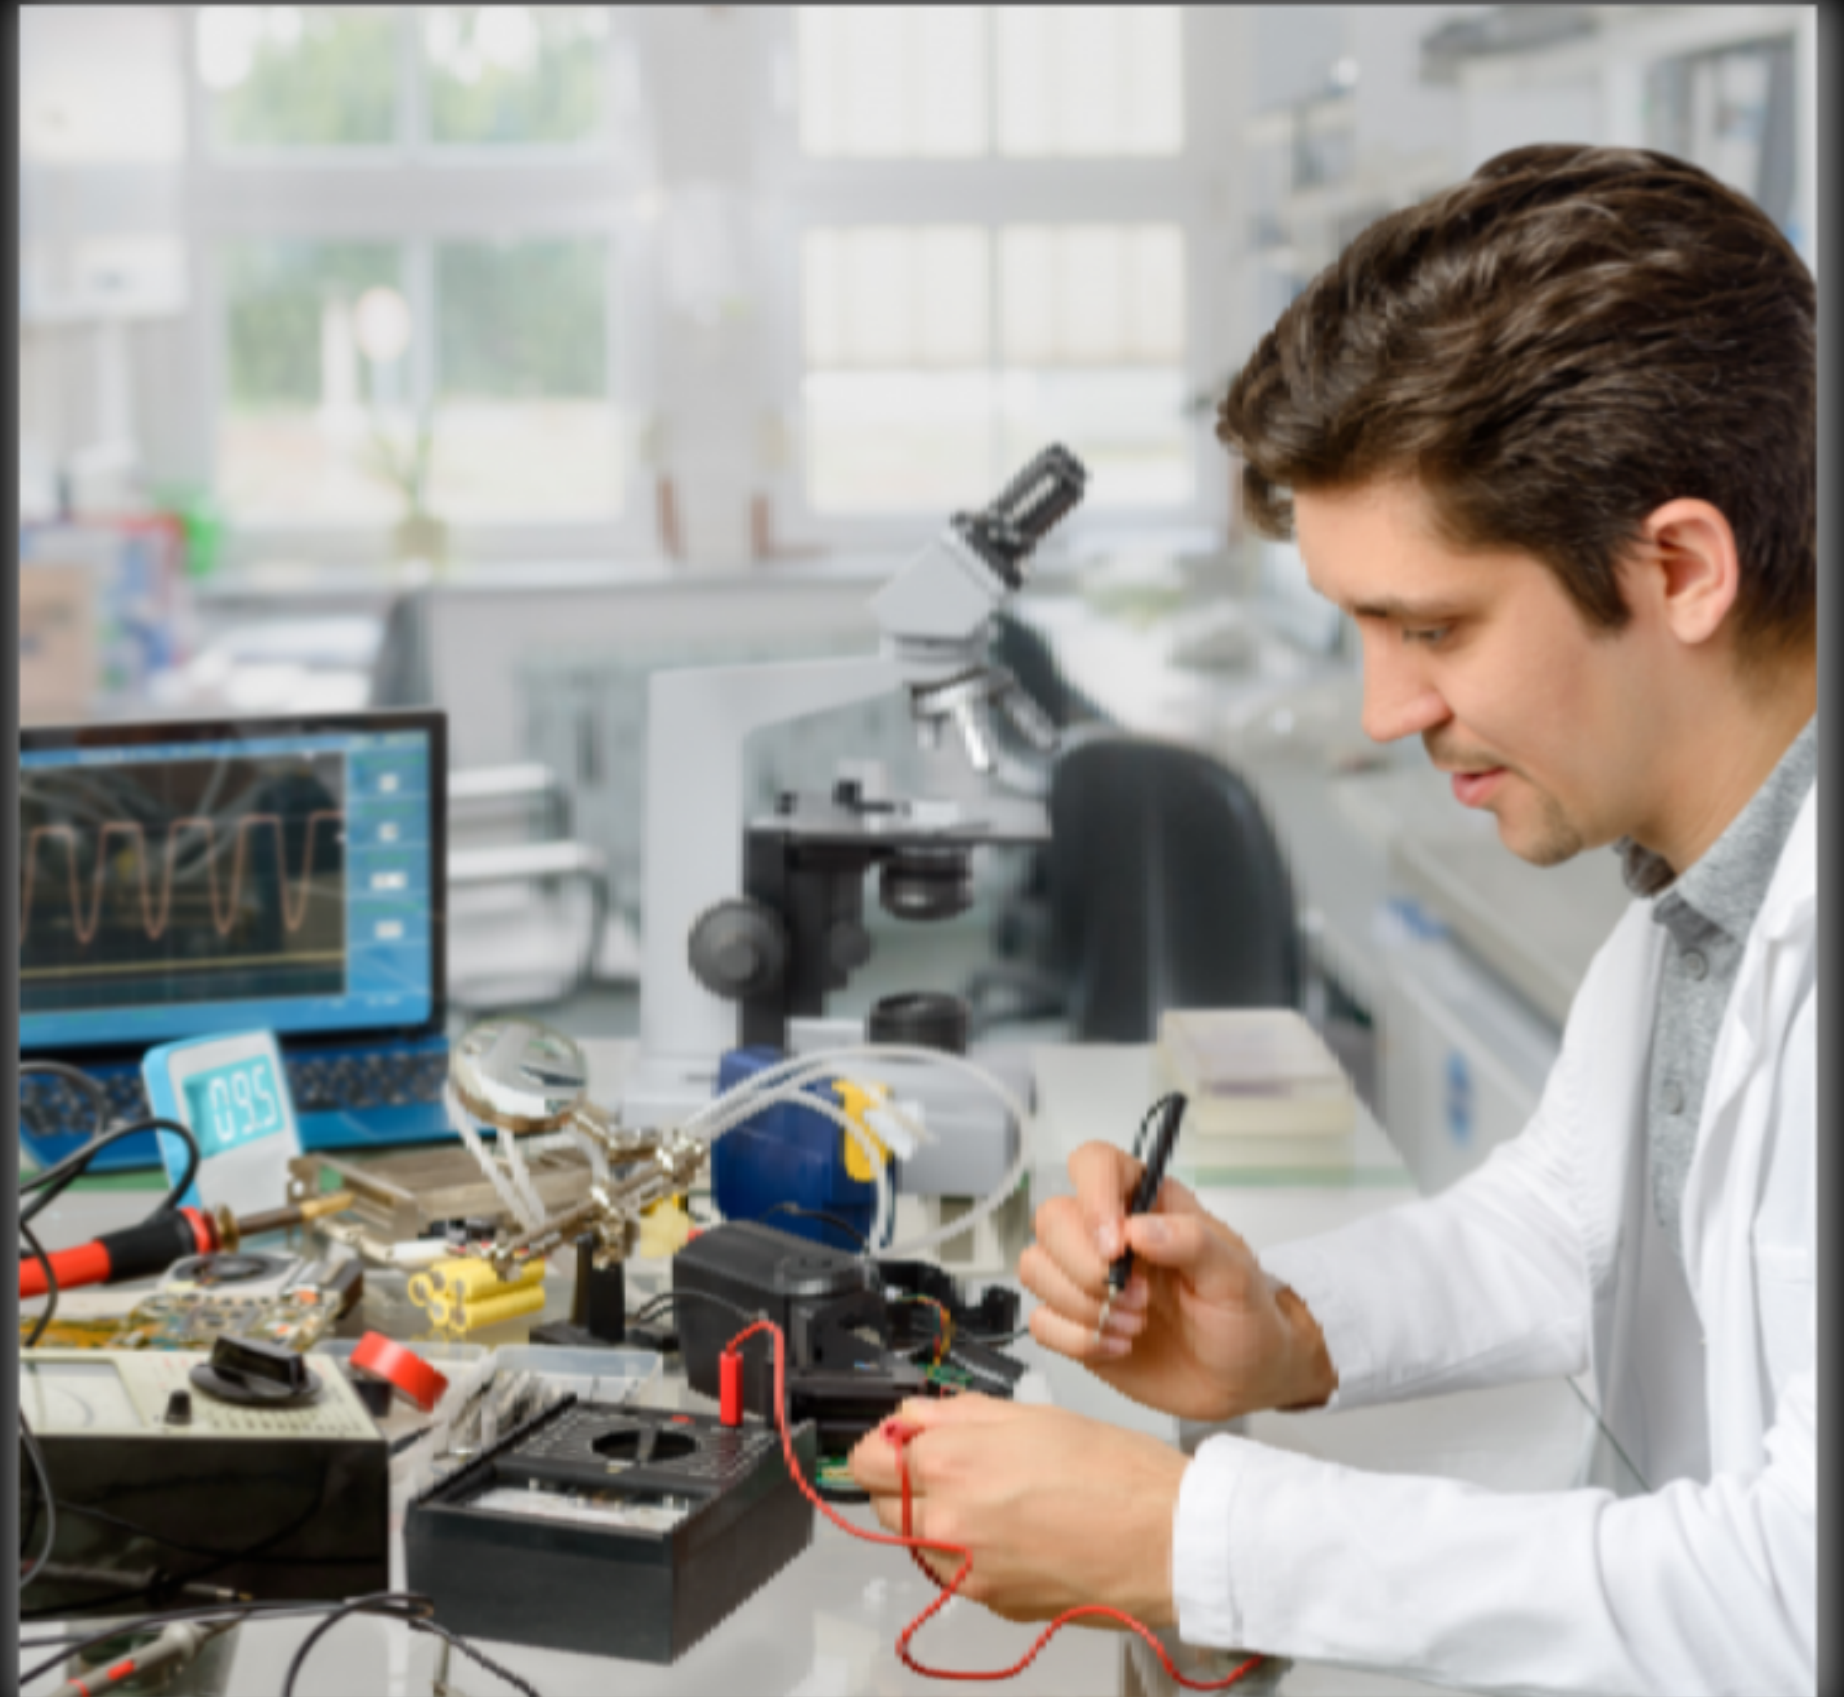

A training program that is both engaging and well-designed increases the manufacturer's ability to assess equipment and devices to ensure safety and effectiveness. Furthermore, adequate and thorough training can improve the outcomes on any usability tests and dictate if the product is subject to mistakes that can be harmful to a patient's outcome.

We provide qualified engineers and product specialists training on our Medical Equipment. Leaders and mentors will help develop service and other skills necessary for success.

Maintenance

We have full-service medical equipment maintenance providing emergency and planned maintenance services. We service all medical equipment that we provide so long as the product was purchased from El-Noman Group. A quick response time and quality service, backed up with a superior warranty make us a leader in this field.

New Marwa Hospital - Benghazi, Libya.

Installation

Installation of equipment is done with maximum safety, compliance, to medical standards.

These are made by trained product specialists including a service support.

New Marwa Hospital is one of many hospitals/clinics that has an Eye Sector fully equipped by El-Noman Group. They are considered one of the top private hospitals in Libya.
